Domestic Violence Summary

Newark and Sherwood Homes aims to deliver the best possible service for tenants and leaseholders who are experiencing domestic violence. This leaflet explains what we can do to assist in situations where domestic violence is occurring.

What is domestic violence?

Newark and Sherwood Homes has adopted the following definition of domestic violence:

The Government defines domestic violence as "Any incident of threatening behaviour, violence or abuse (psychological, physical, sexual, financial or emotional) between adults who are or have been intimate partners or family members, regardless of gender or sexuality."

This includes issues of concern to black and minority ethnic (BME) communities such as so called 'honour based violence', female genital mutilation (FGM) and forced marriage.

Domestic violence occurs across society, regardless of age, gender, race, sexuality, wealth and geography and the abuse is mainly carried out by men on women. However Newark and Sherwood Homes recognises that domestic violence can be experienced by gay and less able bodied people. Children living in a home where domestic violence occurs are also affected, causing distress and other long-term trauma.

Domestic Violence can include:

- Physical attacks
- Verbal abuse
- Sexual abuse
- Emotional abuse
- Social isolation
- Financial control
- Physical and mental threats
- Harassment

Domestic violence is about control within a relationship, and is often a hidden form of abuse.

What Newark and Sherwood Homes can do:

In line with our Domestic Violence Policy (which can be accessed by contacting Newark and Sherwood Homes on 0845 258 5550 or online at www.nshomes.co.uk) we will:

- Assist tenants and leaseholders experiencing domestic violence or threatened with domestic violence to live in safety
- Ensure that tenants and leaseholders are given appropriate and accurate advice regarding their housing options, including any legal rights and responsibilities
- Work with partners to prevent homelessness where domestic violence is a factor
- Consider each case on an individual basis
- Ensure that access to services is available to all sections of the community regardless of age, gender, disability, race, religion or belief, or sexual orientation.
- Adopt a partnership approach to problem solving
