

Your Gas Appliances: Get Them Checked – Keep Them Safe!

Introducing a New Service especially
for Leaseholders of Newark and Sherwood District Council
Gas Appliance Servicing

Every year people die from carbon monoxide poisoning caused by gas appliances that have not been properly installed or maintained. Many others also suffer ill health. Make sure you and your family are safe – get them checked!

In partnership with Powerminster Gleeson Services, Newark and Sherwood Homes are pleased to offer leaseholders preferential rates for gas appliance servicing and associated minor repairs. This arrangement will be between you, as a leaseholder and Powerminster Gleeson Services direct. If you would like further information on the rates and services available please contact:

Debbie Middleton, Call Centre Manager
Powerminster Gleeson Services Limited
Riverside House, 20 Don Road, Sheffield, S9 2UB
☎ 0845 2990356
E-mail: dmiddleton@powerminster.co.uk

Do you sublet your property? If so, as a landlord, by law you are responsible for making sure gas fittings and flues are maintained in good order and that gas appliances and flues are checked for safety once in a period of 12 months. You must also keep a record of these checks for at least 2 years and issue the latest certificate to existing tenants and any new tenants before they move in.

Further information on Gas Safety is available, free of charge from the HSE (Health and Safety Executive): Advice Line ☎ 0800 300 363 www.hse.gov.uk
